Education

Harcourt Butler Technical University

Bachelor of Technology in Information Technology — CGPA: 7.7/10

Sep. 2023 – May 2027

Kanpur, Uttar Pradesh

Professional Summary

Information Technology undergraduate with a strong foundation in programming, problem-solving, and analytical thinking. Currently expanding my knowledge in Artificial Intelligence and Machine Learning while building practical experience through hands-on projects. Passionate about leveraging technology to solve real-world problems and eager to contribute, learn, and grow as an AI/ML Intern in a collaborative and innovative environment.

Projects

Netflix Movies & TV Shows Data Analysis | *Python, Pandas, NumPy, Matplotlib, Seaborn*

2026

- Analyzed a dataset containing **8,800+ Netflix titles** to identify trends in content type, genres, ratings, release years, and countries.
- Performed data cleaning by handling missing values, removing duplicates, converting date formats, and engineering useful features for analysis.
- Conducted Exploratory Data Analysis (EDA) and developed insightful visualizations using Matplotlib and Seaborn to uncover content distribution and business trends.
- Generated actionable insights through data visualization and statistical analysis, demonstrating effective data storytelling and analytical thinking.
- **GitHub Repository:** github.com/tanishqkatiyar-sys/Netflix_EDA

Technical Skills

Programming Languages: Python, C, C++

Data Analytics: Pandas, NumPy, Matplotlib, Seaborn

Machine Learning: Scikit-learn (Learning), Statistics, Exploratory Data Analysis (EDA)

Database: SQL (Learning)

Version Control: Git, GitHub

Developer Tools: Jupyter Notebook, Google Colab, VS Code

Achievements

- Solved **370+** Data Structures and Algorithms (DSA) problems on **LeetCode**, strengthening analytical and problem-solving skills.
- Completed an end-to-end Exploratory Data Analysis (EDA) project involving data cleaning, preprocessing, visualization, and insight generation using Python.
- Applied feature engineering, statistical analysis, and data visualization techniques to analyze real-world datasets and support data-driven decision-making.
- Continuously learning Artificial Intelligence, Machine Learning, and Data Analytics through hands-on projects and practical implementation.
